To Whom It May Concern,

It is with great pleasure that we recommend Mr. Ádám Perényi, with whom we have maintained a professional relationship since 2007.

Throughout the years, we have come to know Ádám as an outstanding professional and a person of exceptional character. In Hungary, he is uniquely recognized as a hairdresser who, rather than aligning with major brands, has independently organized and hosted his own high-quality hair shows and workshops. He has mentored and supported dozens of young professionals at the start of their careers, and his salons have consistently been held in high regard within the industry.

In our collaboration, Ádám led the hairdressing stage program of *Beauty Forum*—Hungary's largest professional beauty industry event, organized by our company—for nearly a decade. From 2006 to 2016, he and his team regularly presented captivating live shows on the main stage. At his exhibition stand, he conducted professional demonstrations and, as a valued partner, continuously provided our company with step-by-step and fashion image content of international quality.

We are also proud to highlight our shared charitable initiative, during which we launched a nationwide campaign in support of hair donation for children with cancer. Ádám played a key role in coordinating the participating hairdressers on behalf of the "Together for Children with Cancer" Foundation. In this initiative, master hairdressers provided free haircuts to donors who offered their long, natural hair to be made into wigs for young patients.

It is with the utmost respect that we recommend Mr. Ádám Perényi, whose innovative approach and extensive experience could make a valuable contribution to the professional development of hairdressing in Mauritius.

Sincerely,

ealth and Beauty Business Media Kft.
